

Publisher Correction: A 51,000-year-old engraved bone reveals Neanderthals' capacity for symbolic behaviour

Dirk Leder , Raphael Hermann , Matthias Hüls, Gabriele Russo , Philipp Hoelzmann, Ralf Nielbock , Utz Böhner, Jens Lehmann, Michael Meier, Antje Schwalb, Andrea Tröller-Reimer, Tim Koddenberg  and Thomas Terberger

Correction to: *Nature Ecology & Evolution* <https://doi.org/10.1038/s41559-021-01487-z>, published online 5 July 2021.

In Fig. 2 of this Article originally published, in square 97/297 a yellow rectangle was mistakenly placed beneath bone 6. This error has now been corrected.
